SUMMARY

AI & Data Science undergraduate with hands-on experience in cloud data analytics, computer vision, and full-stack ML applications. Skilled in building end-to-end data and AI solutions using Python, SQL, GCP, and modern web frameworks. Smart India Hackathon 2024 Finalist.

PROJECTS

Unlocking Lending Insights

Project Doc

- Analyzed **Fintech loan data (2012–2019)** using **SQL in Google BigQuery** to identify loan growth trends and key portfolio metrics.
- Developed an **interactive dashboard in Looker Studio** visualizing loan volume, outstanding balances, borrower location, and income distribution for executive stakeholders.
- Provided **data-driven insights** to support lending decisions, risk assessment, and portfolio monitoring for a simulated treasury team.

Real-Time Sign Language Detection (YOLO)

Github

- Developed a **real-time sign language detection system** using the **YOLO object detection model** to recognize hand gestures from live video input.
- Prepared and annotated gesture datasets, trained a **YOLO-based deep learning model**, and optimized it for accurate and fast inference.
- Integrated the trained model with **OpenCV** to perform **real-time detection and classification** of sign language gestures.

Stock Prediction Portal

Github

- Developed a **full-stack stock prediction system** with **Django REST + React**, featuring JWT auth and protected routes.
- Trained an **LSTM model** on historical Yahoo Finance data and delivered real-time forecasts with interactive visualizations.

EXTRA CURRICULAR ACTIVITIES

Computer Society Of India, CSI CRCE *July 2025 - Present*

Marketing Head

- Assisted in organizing and managing **technical events** as part of the college's annual tech fest.
- Promoted a culture of **innovation and collaboration** among students through **technical initiatives**.

EDUCATION

BE in Artificial Intelligence and Data Science *2023 - 2027*

Fr. Conceicao Rodrigues College Of Engineering – CGPA 7.95(Till 4th Semester)

Don Bosco Junior College (HSC 79%) *2021-2023*

Don Bosco High School (SSC 84%) *2009 – 2021*

SKILLS

Languages: Python, SQL, C, Java
Web & Backend: Django, Django REST Framework, React, HTML, CSS
ML & Data: TensorFlow/Keras, Scikit-learn, Pandas, NumPy, YOLO
Cloud & BI: Google Cloud Platform, BigQuery, Looker, Power BI, Tableau

CERTIFICATIONS

Google Cloud Data Analytics Certificate *Issued By: Google Cloud* *Issued Year: 2025*
